DETAILED ACTION

Response to Amendment

1. Applicant's After-Final amendment filed on December 16, 2005 has been entered. Claims 21, 26-30 and 42 have been amended. Claims 1-20, 22-25 and 37-41 have been cancelled. No claim has been added. Claims 21, 26-36 and 42-46 are still pending in this application, with claims 21, 26-30 and 42-44 being independent.

Allowable Subject Matter

2. Claims 43-46 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant teaches a device having a plurality of laser diodes, the output of the laser diodes being focused by a lens assembly and sequentially redirected by beam steering means, to a plurality of target locations on a plane, each location being approximately 800 microns from each other. The laser diodes are mounted on opposite sides of a copper mounting-block, with a separate insulated wire-bonding pad for each laser diode. The mounting block includes at least two generally planar walls generally orthogonal to the plurality of target locations. The spacing between the walls generally fix the relative spacing between the target locations.

No prior art was found teaching individually, or suggesting in combination, all of the structural features of applicants' invention.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
